

Table of Contents: Volume 1 of 3

Acronyms and Abbreviations	AA-1
---	-------------

Executive Summary	ES-1
--------------------------------	-------------

ES.1	What is the I-70 East EIS project and where is it located?	ES-2
ES.2	What is the background of the I-70 East project?	ES-3
ES.3	Why prepare an EIS for the I-70 East project?	ES-4
ES.4	What is the project's purpose and need?	ES-5
ES.5	Which alternatives are fully analyzed in this Final EIS?.....	ES-7
ES.6	What is the project's identified Preferred Alternative and why was it selected?	ES-12
ES.7	How will the Preferred Alternative be funded and how will project phasing be used to construct the project?	ES-13
ES.8	What are the project's transportation impacts?	ES-13
ES.9	What resources are evaluated for impacts and benefits in the project area?.....	ES-16
ES.10	How are the public and stakeholders involved in the I-70 East EIS project?	ES-23
ES.11	What are the project impacts to Section 4(f) properties?.....	ES-24
ES.12	What happens after publication of the Final EIS?	ES-26

Resumen ejecutivo	RE-1
--------------------------------	-------------

ES.1	¿Qué es el proyecto del EIS de la I-70 Este y dónde está localizado?	RE-2
ES.2	¿Cuáles son los antecedentes del proyecto de la I-70 Este?	RE-3
ES.3	¿Por qué debemos preparar un EIS para el proyecto de la I-70 Este?.....	RE-4
ES.3.1	¿Cuál es el propósito del EIS Final?.....	RE-4
ES.4	¿Cuál es el propósito y necesidad del proyecto?	RE-5
ES.5	¿Qué alternativas se han analizado en su totalidad en el EIS Final?	RE-7
ES.6	¿Cuál es la Alternativa Preferida identificada por el proyecto y por qué fue seleccionada?	RE-13
ES.7	¿Cómo se financiará la Alternativa Preferida y cómo se utilizarán las fases para construir el proyecto?	RE-14
ES.8	¿Cuáles son los impactos del proyecto sobre el transporte?	RE-15
ES.9	¿Qué recursos se están evaluando para determinar los impactos y beneficios en la zona del proyecto?.....	RE-17
ES.10	¿Cómo participan el público y las partes interesadas en el proyecto del EIS de la I-70 Este?.....	RE-25
ES.11	¿Cuáles son los impactos del proyecto a las propiedades estipuladas en la Sección 4(f)?	RE-26
ES.12	¿Qué sucederá después de la publicación del EIS final?	RE-29

Chapter 1: Introduction	1-1
--------------------------------------	------------

1.1	What is the NEPA process?	1-2
1.2	What is the history of I-70?	1-2
1.3	What is the I-70 East EIS project?.....	1-3
1.4	Who has been involved in the I-70 East NEPA process?.....	1-5
1.5	How were comments on the Supplemental Draft EIS addressed?.....	1-5
1.6	What happens after the Final EIS?.....	1-5
1.7	When will the project be built?.....	1-6
1.8	How to stay involved and how CDOT will communicate with the public.....	1-6
1.9	How is this document organized?	1-6

Chapter 2: Purpose and Need	2-1
2.1 Why was the I-70 East project initiated?	2-2
2.2 What is the horizon year of analysis for this project?	2-3
2.3 What are the project limits and where is the project area?	2-3
2.4 What is the purpose of the project?	2-5
2.5 Why is this project needed now?	2-5
2.6 How is the project purpose and need used to evaluate potential alternatives?.....	2-11
Chapter 3: Summary of Project Alternatives.....	3-1
3.1 What alternatives are fully evaluated in this document?	3-2
3.2 What is the capital cost and maintenance cost of the project alternatives?.....	3-19
3.3 Which alternative has been identified as the Preferred Alternative and why?.....	3-20
3.4 What happened to the design variations that were introduced in the Supplemental Draft EIS?	3-23
3.5 How were the initial alternatives developed and what did they include?.....	3-28
3.6 What are the project's goals and objectives?	3-31
3.7 What was the screening process that developed the alternatives evaluated in the Draft EIS?.....	3-33
3.8 How were alternatives modified after the Draft EIS and what alternatives were evaluated in the Supplemental Draft EIS?	3-37
3.9 What alternatives off of the existing alignment were considered and why were they eliminated?	3-39
Chapter 4: Transportation Impacts and Mitigation Measures	4-1
4.1 What are the existing transportation facilities in the study area?	4-2
4.2 What are the existing safety concerns?	4-11
4.3 What are the existing traffic conditions?.....	4-12
4.4 How were future traffic and transportation evaluated?	4-22
4.5 How do the project alternatives affect the transportation facilities?.....	4-24
4.6 How do the project alternatives affect safety?.....	4-32
4.7 How will the project alternatives affect traffic conditions?.....	4-32
4.8 Summary of transportation impacts and mitigation measures	4-55
Chapter 5: Affected Environment, Environmental Consequences, and Mitigation	5.1-1
5.1 Introduction to Chapter 5.....	5.1-1
5.1.1 What is the study area?	5.1-3
5.1.2 What are the alternatives analyzed in Chapter 5?.....	5.1-4
5.1.3 What resources are not affected by the project alternatives?	5.1-4
5.2 Social and Economic Conditions	5.2-1
5.2.1 What are social and economic conditions and why are they important to this project?	5.2-1
5.2.2 What study area and evaluation process were used to analyze social and economic conditions?	5.2-2
5.2.3 What are the existing conditions of the neighborhoods in the study area?	5.2-4
5.2.4 What are the public services and facilities in the study area?	5.2-11
5.2.5 What are the existing social characteristics and recent trends of the neighborhoods in the study area?.....	5.2-16
5.2.6 What are the impacts from the alternatives to neighborhood social conditions?..	5.2-30
5.2.7 How does the No-Action Alternative impact neighborhood social conditions?.....	5.2-31
5.2.8 How do the Build Alternatives (Revised Viaduct Alternative and Partial Cover Lowered Alternative) impact neighborhood social conditions?.....	5.2-33
5.2.9 What are the construction impacts on social resources?	5.2-39
5.2.10 What are the economic conditions in the study area?.....	5.2-39
5.2.11 How do the project alternatives potentially affect economic resources?	5.2-43

5.2.12	What are the effects to economic conditions by the No-Action Alternative?	5.2-43
5.2.13	What are the effects to economic conditions from the Build Alternatives?	5.2-45
5.2.14	What are the construction impacts on economic resources?	5.2-48
5.2.15	How are negative effects to social and economic conditions mitigated?	5.2-49
5.3	Environmental Justice	5.3-1
5.3.1	What is environmental justice and why is it important to this project?.....	5.3-1
5.3.2	What study area was used to identify environmental justice populations?.....	5.3-2
5.3.3	How are the low-income and minority populations distributed in the study area?..	5.3-3
5.3.4	How were the low-income and minority populations involved in the study process?.....	5.3-6
5.3.5	Was an alternative evaluated that avoids impacts to low-income and minority populations?	5.3-8
5.3.6	How were alternatives modified to minimize impacts to low-income and minority populations?	5.3-9
5.3.7	How are the environmental justice impacts of the project identified?	5.3-10
5.3.8	What impacts to low-income and minority populations are similar among all alternatives?.....	5.3-10
5.3.9	What benefits to low-income and minority populations are similar among all alternatives?.....	5.3-12
5.3.10	What mitigation measures are similar among all alternatives?.....	5.3-13
5.3.11	What are the environmental justice impacts specific to the No-Action Alternative?	5.3-15
5.3.12	What are the benefits of the No-Action Alternative?.....	5.3-19
5.3.13	What are the environmental justice mitigation measures of the No-Action Alternative?	5.3-20
5.3.14	Does the No-Action Alternative result in disproportionately high and adverse impacts to low-income and minority populations?.....	5.3-21
5.3.15	What are the environmental justice impacts specific to the Revised Viaduct Alternative?	5.3-22
5.3.16	What are the benefits of the Revised Viaduct Alternative?	5.3-24
5.3.17	What are the environmental justice mitigation measures for the Revised Viaduct Alternative?	5.3-25
5.3.18	Does the Revised Viaduct Alternative result in disproportionately high and adverse impacts to low-income and minority populations?.....	5.3-27
5.3.19	What are the environmental justice impacts specific to the Partial Cover Lowered Alternative?	5.3-28
5.3.20	What are the benefits of the Partial Cover Lowered Alternative?.....	5.3-30
5.3.21	What are the environmental justice mitigation measures for the Partial Cover Lowered Alternative?	5.3-32
5.3.22	Does the Partial Cover Lowered Alternative result in disproportionately high and adverse impacts to low-income and minority populations?.....	5.3-34
5.3.23	What are the environmental justice impacts specific to the Managed Lanes Option?	5.3-36
5.3.24	What are the benefits specific to the Managed Lanes Option?.....	5.3-36
5.3.25	What are the environmental justice mitigation measures for the Managed Lanes Option?.....	5.3-37
5.3.26	What is the summary of environmental justice impacts and mitigation measures of the project's Build Alternatives?.....	5.3-38

5.4	Land Use	5.4-1
5.4.1	What is land use and why is it important to this project?	5.4-1
5.4.2	What study area and evaluation process were used to analyze land use?.....	5.4-1
5.4.3	How does I-70 relate to the state and regional transportation planning process? ..	5.4-3
5.4.4	What local land use and transportation plans are considered?	5.4-7
5.4.5	How is this project related to the North Denver Cornerstone Collaborative?	5.4-10
5.4.6	What are the existing and proposed future land uses in the study area?.....	5.4-11
5.4.7	Are existing and future planned land uses consistent with existing zoning?.....	5.4-11
5.4.8	How do local agencies account for future land use change?	5.4-13
5.4.9	How do the project alternatives potentially affect land use in the study area?	5.4-14
5.4.10	Are the project alternatives consistent with local and regional plans?.....	5.4-15
5.4.11	How are land use changes by the project alternatives mitigated?	5.4-18
5.5	Relocations and Displacements	5.5-1
5.5.1	What is a relocation or displacement and why is it important to this project?	5.5-1
5.5.2	What study area and evaluation process were used to analyze potential relocations and displacements?	5.5-1
5.5.3	What are the residential relocations and displacements?	5.5-3
5.5.4	Will there be any business relocations?	5.5-9
5.5.5	Will there be any non-profit relocations?	5.5-17
5.5.6	How are the negative effects from land acquisition by the project alternatives mitigated?	5.5-17
5.6	Historic Preservation.....	5.6-1
5.6.1	What are historic resources and why are they important to this project?	5.6-1
5.6.2	What is a Section 106 Consultation?	5.6-2
5.6.3	What is the APE and what evaluation process was used to analyze historic resources?.....	5.6-4
5.6.4	What are the areas of interest for historic preservation that are being analyzed and what are their existing conditions?	5.6-6
5.6.5	How do the project alternatives potentially affect historic resources?	5.6-9
5.6.6	How are the adverse effects from the project alternatives mitigated for historic resources?.....	5.6-16
5.7	Paleontological Resources.....	5.7-1
5.7.1	What are paleontological resources and why are they important to this project? ..	5.7-1
5.7.2	What study area and evaluation process were used to analyze paleontological resources?.....	5.7-1
5.7.3	What are the areas of interest for paleontological resources that are being analyzed and what are their existing conditions?	5.7-3
5.7.4	How do the project alternatives affect paleontological resources?	5.7-6
5.7.5	How are the adverse effects from the project alternatives mitigated for paleontological resources?	5.7-7
5.8	Visual Resources and Aesthetic Qualities	5.8-1
5.8.1	What are visual resources and why are they important to this project?	5.8-1
5.8.2	What study area and evaluation process were used to analyze visual resources? ..	5.8-2
5.8.3	What are the existing visual resources along I-70?	5.8-2
5.8.4	What are the potential impacts to visual resources and aesthetic qualities and how are they assessed?	5.8-7
5.8.5	How are negative effects from the project alternatives to visual resources mitigated?	5.8-24

5.9	Parks and Recreational Resources	5.9-1
5.9.1	What are parks and recreational resources and why are they important to this project?	5.9-1
5.9.2	What study area and evaluation process were used to analyze parks and recreational resources?	5.9-1
5.9.3	What are the parks and recreational resources that are being analyzed and what are their existing conditions?	5.9-2
5.9.4	Are any of the parks and recreational resources a Section 6(f) resource?	5.9-8
5.9.5	How do the project alternatives potentially affect parks and recreational resources?.....	5.9-8
5.9.6	How are the negative effects from the project alternatives mitigated?.....	5.9-19
5.10	Air Quality	5.10-1
5.10.1	What are air quality concerns and why are they important to this project?	5.10-2
5.10.2	What is required for Transportation Conformity?	5.10-6
5.10.3	What study area was used to analyze air quality?.....	5.10-8
5.10.4	What are the existing conditions for air quality?	5.10-9
5.10.5	What process was used to analyze air quality?	5.10-14
5.10.6	How do the project alternatives potentially affect air quality?.....	5.10-26
5.10.7	What are the summary points of this air quality analysis?.....	5.10-43
5.10.8	Will mitigation efforts be required to offset any negative effects on air quality from the project alternatives?	5.10-44
5.11	Energy	5.11-1
5.11.1	What is energy and why is it important to this project?	5.11-1
5.11.2	What study area and methodology were used to analyze energy impacts?.....	5.11-2
5.11.3	What are the existing conditions for energy consumption?.....	5.11-4
5.11.4	How do the project alternatives potentially affect energy consumption?	5.11-4
5.11.5	How are the negative effects from the project alternatives mitigated for energy?.....	5.11-6
5.12	Noise	5.12-1
5.12.1	What is noise and why is it important to this project?	5.12-1
5.12.2	What study area and evaluation process were used to analyze noise?	5.12-2
5.12.3	How are noise impacts described in this section?.....	5.12-5
5.12.4	How do the project alternatives affect noise in Globeville?	5.12-6
5.12.5	How do the project alternatives affect noise in Elyria and Swansea?	5.12-11
5.12.6	How is noise in Stapleton affected by the project alternatives?.....	5.12-23
5.12.7	How is noise in the Peoria Street area and Montbello affected by the project alternatives?.....	5.12-25
5.12.8	How is noise in Aurora affected by the project alternatives?.....	5.12-31
5.12.9	Are noise impacts going to be mitigated?	5.12-34
5.12.10	How will noise impacts be mitigated?.....	5.12-36
5.12.11	What are the impacts from noise during construction?	5.12-60
5.12.12	How will construction noise be mitigated?.....	5.12-60
5.13	Biological Resources	5.13-1
5.13.1	What are biological resources and why are they important to this project?	5.13-1
5.13.2	What study area and evaluation process were used to analyze biological resources?.....	5.13-2
5.13.3	What are the existing conditions of biological resources analyzed in the study area?	5.13-3
5.13.4	How do the project alternatives potentially affect biological resources?	5.13-16
5.13.5	How are the negative effects from the project alternatives mitigated for biological resources?.....	5.13-22

5.14	Floodplains and Drainage/Hydrology	5.14-1
5.14.1	What are floodplains and ponding areas and why are they important to this project?	5.14-1
5.14.2	What study area and process were used to analyze floodplains and drainage? ...	5.14-3
5.14.3	What are the areas of floodplain and drainage interest that are being analyzed and what are their existing conditions?	5.14-5
5.14.4	How do the project alternatives potentially affect floodplains and drainage?	5.14-7
5.14.5	How are the negative effects from the project alternatives mitigated for floodplains and drainage?.....	5.14-10
5.15	Wetlands, Open Waters, and Other Waters of the U.S.....	5.15-1
5.15.1	What are wetlands, open waters, and other waters of the U.S. and why are they important to this project?.....	5.15-1
5.15.2	What study area and evaluation process were used to analyze wetlands, open waters, and other waters of the U.S.?	5.15-3
5.15.3	What are the existing conditions of wetlands, open waters, and other waters of the U.S.?	5.15-3
5.15.4	How do the project alternatives potentially impact wetlands, open waters, and other waters of the U.S.?	5.15-6
5.15.5	Can impacts to wetlands, open waters, and other waters of the U.S. be avoided? If not, how are impacts minimized?.....	5.15-10
5.15.6	How are the negative effects from the project alternatives mitigated for wetlands, open waters, and other waters of the U.S.?.....	5.15-11
5.15.7	What is the only practicable alternative finding?	5.15-12
5.16	Water Quality	5.16-1
5.16.1	What is water quality and why is it important to this project?	5.16-1
5.16.2	How is water quality regulated and assessed?	5.16-3
5.16.3	What study area and process was used to analyze water quality?.....	5.16-8
5.16.4	What are the areas of water quality interest that are being analyzed and what is the existing water quality condition in the study area?	5.16-9
5.16.5	How do the project alternatives potentially affect water quality?	5.16-10
5.16.6	How are the negative effects from the project alternatives mitigated for water quality?.....	5.16-13
5.17	Geology and Soils.....	5.17-1
5.17.1	What are geology and soil resources and why are they important to this project?	5.17-1
5.17.2	What study area and process were used to analyze impacts to geology and soil resources?	5.17-1
5.17.3	What are the existing geology and soil resources in the study area?	5.17-2
5.17.4	How do the project alternatives affect the geology and soil resources?.....	5.17-6
5.17.5	How are the impacts to the geological resources minimized and mitigated?	5.17-8
5.18	Hazardous Materials.....	5.18-1
5.18.1	What are hazardous materials and why are they important to this project?.....	5.18-1
5.18.2	What study area and process were used to analyze hazardous materials?	5.18-2
5.18.3	What are the areas of interest for hazardous materials that are being analyzed and what are their existing conditions?	5.18-4
5.18.4	Are there other hazardous material regulations the project will follow?.....	5.18-10
5.18.5	How do the project alternatives potentially encounter hazardous materials?	5.18-11
5.18.6	What are the impacts to hazardous materials during construction?	5.18-15
5.18.7	How are the negative effects from the project alternatives mitigated for hazardous materials?	5.18-16

5.19	Utilities	5.19-1
5.19.1	What are utilities and why are they important to this project?.....	5.19-1
5.19.2	What study area and evaluation process were used to analyze utility impacts?...	5.19-2
5.19.3	What are the existing conditions for utilities in the study area?	5.19-4
5.19.4	How do the project alternatives potentially affect utilities?.....	5.19-11
5.19.5	How are the impacts from the project alternatives mitigated for the utilities?...	5.19-24
5.20	Human Health Conditions.....	5.20-1
5.20.1	Why discuss human health conditions?.....	5.20-1
5.20.2	How are project impacts, benefits, and mitigation measures related to human health evaluated in this document?	5.20-2
5.20.3	What conclusions can be drawn about potential human health impacts?.....	5.20-10
5.20.4	What additional studies were conducted by others on human health conditions within or near the study area?	5.20-12
5.20.5	What additional studies conducted by others on human health conditions outside of the study area were reviewed?.....	5.20-20
5.21	Irreversible and Irretrievable Commitment of Resources	5.21-1
5.21.1	What is an irreversible and irretrievable commitment of resources and why is it important to this project?.....	5.21-1
5.21.2	What study area and evaluation process were used to analyze the irreversible and irretrievable commitment of resources?	5.21-1
5.21.3	How do the project alternatives potentially affect resources in an irreversible and/or irretrievable manner?	5.21-2
5.21.4	How are the negative effects from the project alternatives mitigated for these resources?.....	5.21-4
5.22	Short-Term Uses versus Long-Term Productivity	5.22-1
5.22.1	What is the relationship between the short-term uses of the environment and long-term productivity and why is it important to this project?.....	5.22-1
5.22.2	What study area and evaluation process were used to determine the short-term uses and long-term productivity?	5.22-1
5.22.3	How do the project alternatives potentially affect short-term uses and long-term productivity?.....	5.22-2
5.22.4	How are the negative effects from the project alternatives mitigated for short-term uses?.....	5.22-2
5.23	Summary of Impacts and Mitigations.....	5.23-1
Chapter 6:	Cumulative Impacts	6-1
6.1	What are cumulative impacts and why are they important to this project?.....	6-2
6.2	What resources, study areas, and methods are included in this cumulative impacts analysis?	6-2
6.3	What past, present, and future actions are considered?.....	6-5
6.4	What are the anticipated cumulative impacts?	6-10
6.5	What are the cumulative benefits?.....	6-33

Chapter 7: Section 4(f) Evaluation 7-1

7.1 What are Section 4(f) properties and why are they important to this project? 7-2

7.2 What federal regulations mandate a Section 4(f) evaluation? 7-2

7.3 What constitutes a “use” under Section 4(f)? 7-3

7.4 What is the purpose and need for the project? 7-4

7.5 What alternatives are evaluated in the Final EIS? 7-5

7.6 How were Section 4(f) properties identified? 7-9

7.7 What Section 4(f) properties are located within the project area? 7-10

7.8 Does the proposed project use any Section 4(f) properties? 7-16

7.9 Are there any feasible and prudent alternatives that will avoid using Section 4(f) properties? 7-96

7.10 How does the project incorporate all possible planning to minimize harm? 7-102

7.11 What alternative will have the least overall harm? 7-106

7.12 What coordination has been completed with officials having jurisdiction over Section 4(f) properties? 7-121

7.13 What is the conclusion of this Section 4(f) Evaluation? 7-121

7.14 Final Section 4(f) Statement 7-122

Chapter 8: Phased Project Implementation 8-1

8.1 Will the project’s Preferred Alternative be built all at once or in phases? 8-2

8.2 What are the proposed project phases? 8-3

8.3 What are the resource impacts and mitigation measures associated with Phase 1? 8-10

8.4 Would there be additional impacts and mitigation measures associated with Phase 2? 8-24

8.5 How will Phase 1 affect traffic conditions compared to the full build-out of the Preferred Alternative? 8-32

8.6 How will the project be funded? 8-47

Chapter 9: Preferred Alternative Mitigation Commitments 9-1

Chapter 10: Community Outreach and Agency Involvement 10-1

10.1 What are the objectives of community outreach and agency involvement? 10-2

10.2 What is project scoping and what was the result? 10-2

10.3 What was the outreach completed at the beginning of the project and during the development of the 2008 Draft EIS? 10-6

10.4 What was the Preferred Alternative Collaborative Team process? 10-14

10.5 How were communities and agencies involved following the completion of the PACT process and during the development of the 2014 Supplemental Draft EIS? 10-17

10.6 How have communities and agencies been involved during the development of the Final EIS? 10-23

10.7 What is HPTE’s transparency policy and public engagement process? 10-31

10.8 What tools have been used to provide the public with project information 10-32

10.9 What future public and agency involvement opportunities will be provided? 10-35

Chapter 1: Introduction

Chapter 2: Purpose and Need

2-1	Project Area and Limits	2-4
2-2	Heavy Vehicle Percentage of Traffic	2-8
2-3	Travel Time	2-9

Chapter 3: Summary of Project Alternatives

3-1	No-Action Alternative Lane Configuration and Interchange Reconstruction	3-3
3-2	No-Action Alternative Expansion Options	3-4
3-3	No-Action Alternative Typical Section	3-4
3-4	Revised Viaduct Alternative and Options.....	3-8
3-5	Revised Viaduct Alternative Lane Configuration and Interchange Reconstruction	3-9
3-6	Revised Viaduct Alternative Typical Section	3-10
3-7	Partial Cover Lowered Alternative and Options	3-12
3-8	Partial Cover Lowered Alternative Profile View of the Lowered Section.....	3-13
3-9	Partial Cover Lowered Alternative Lane Config. and Interchange Reconstruction	3-14
3-10	Partial Cover Lowered Alternative Typical Section	3-15
3-11	Partial Cover Lowered Alternative Preliminary Cover Design.....	3-17
3-12	Project Alternatives Capital Cost Summary	3-19
3-13	Project Alternatives Maintenance Cost Summary	3-19
3-14	Project Goals and Objectives.....	3-32
3-15	Alternative Screening Process through the Supplemental Draft EIS.....	3-34
3-16	Alternative Modification from the 2008 Draft EIS to the Supplemental Draft EIS.....	3-38
3-17	I-270/I-76 Reroute Alternative.....	3-40
3-18	Realignment Alternatives.....	3-42

Chapter 4: Transportation Impacts and Mitigation Measures

4-1	Transportation Impacts Study Area.....	4-3
4-2	Existing North-South Connectivity across I-70.....	4-4
4-3	Existing North-South Connectivity from Brighton Boulevard to Colorado Boulevard	4-4
4-4	46th Avenue and Stapleton Drive North/South Existing Conditions	4-5
4-5	Existing Transit Service	4-6
4-6	Existing Bicycle and Pedestrian Network.....	4-7
4-7	Elyria and Swansea Bicycle and Bus Routes	4-8
4-8	Elyria and Swansea Sidewalks.....	4-8
4-9	Existing Truck Routes.....	4-9
4-10	Existing Freight Rail Facilities	4-10
4-11	Traffic Modeling Process	4-12
4-12	DynusT Sub-Area Model Limits	4-13
4-13	Existing I-70 Traffic Volumes	4-15
4-14	Existing 46th Avenue and Stapleton Drive Traffic Volumes.....	4-16
4-15	Example Heat Diagram Showing Average Speeds on I-70.....	4-18
4-16	Existing I-70 Average Speeds	4-19
4-17	East-West Parallel Route Screenlines	4-21
4-18	Existing Screenline Volumes	4-21
4-19	2035 Transportation System Improvements	4-23
4-20	Summary of Project Alternatives and Options	4-24
4-21	Managed Lanes Option Access Locations.....	4-26
4-22	North/South Connectivity with Revised Viaduct Alternative	4-28
4-23	North/South Connectivity Over I-70 with the Partial Cover Lowered Alternative.....	4-29
4-24	No-Action Alternative, I-70 Volumes	4-34
4-25	Build Alternatives, I-70 Volumes	4-35
4-26	No-Action Alternative, 46th Avenue and Stapleton Drive North/South Volumes	4-37
4-27	Build Alternatives, 46th Avenue and Stapleton Drive North/South Volumes.....	4-38
4-28	No-Action Alternative Average Speeds	4-39
4-29	I-70 Average Speeds for Revised Viaduct Alternative, General-Purpose Lanes	4-40
4-30	I-70 Average Speeds for Partial Cover Lowered Alternative, General-Purpose Lanes ..	4-41
4-31	I-70 Average Speeds for Revised Viaduct Alternative, Managed Lanes.....	4-42
4-32	I-70 Average Speeds for Partial Cover Lowered Alternative, Managed Lanes	4-43
4-33	VMT, No-Action Alternative	4-44
4-34	VMT, Build Alternatives	4-45
4-35	VHT, No-Action Alternative	4-45
4-36	VHT, Build Alternatives.....	4-46
4-37	No-Action Alternative, I-70 Travel Times	4-47
4-38	Build Alternatives, I-70 Travel Times	4-49
4-39	No-Action Alternative, 46th Avenue and Stapleton Drive North/South Travel Times ...	4-50
4-40	Build Alternatives, 46th Avenue and Stapleton Drive North/South Travel Times.....	4-51
4-41	No-Action Alternative, Screenline Volumes	4-52
4-42	Build Alternatives, Screenline Volumes.....	4-53
4-43	Summary of transportation impacts and mitigation.....	4-56

Chapter 5: Affected Environment, Environmental Consequences, and Mitigation**5.1 Introduction to Chapter 5**

5.1-1	Project Area, Project Limits, and Construction Limits.....	5.1-3
5.1-2	Summary of Project Alternatives and Options	5.1-4

5.2 Social and Economic Conditions

5.2-1	Study Area for Social and Economic Conditions	5.2-3
5.2-2	Public Facilities.....	5.2-11
5.2-3	Population Trends, Percentage Population Change 2000 to 2010	5.2-17
5.2-4	Forecasted Population Increase	5.2-18
5.2-5	2010 Age Distribution	5.2-19
5.2-6	2010 Racial Composition	5.2-21
5.2-7	2010 Hispanic or Latino Origin	5.2-23
5.2-8	Limited English Proficiency Analysis Summary.....	5.2-24
5.2-9	Total Housing Units by Neighborhood.....	5.2-25
5.2-10	Increase in Housing Units from 2000 to 2010.....	5.2-26
5.2-11	Occupancy Status of Housing Units.....	5.2-26
5.2-12	Median Household Income.....	5.2-27
5.2-13	Median Home Value	5.2-28
5.2-14	Estimated Percentage of Households with Median Family Income of \$24,999 or Less (Low Income)	5.2-29
5.2-15	Percentage of Households with No Personal Vehicles.....	5.2-29
5.2-16	Annual Unemployment Rate.....	5.2-41
5.2-17	Percentage of Residents with Less than 10-Minute Travel Time to Work	5.2-42
5.2-18	Jobs Created.....	5.2-49
5.2-19	Summary of Social and Economic Conditions Impacts and Mitigations	5.2-51

5.3 Environmental Justice

5.3-1	Environmental Justice Study Area.....	5.3-2
5.3-2	Hispanic or Latino Populations in the Study Area	5.3-4
5.3-3	African-American Populations in the Study Area	5.3-4
5.3-4	Percentage of Low-Income Households in the Study Area	5.3-5
5.3-5	Low-Income and Minority Population Concentrations in the Study Area	5.3-6
5.3-6	Spanish Speaking LEP Population in the Study Area.....	5.3-8
5.3-7	Food Markets and Grocery Stores in the Area.....	5.3-17
5.3-8	Summary of Environmental Justice Benefits, Impacts, and Mitigations	5.3-41

5.4 Land Use

5.4-1	Land Use Study Area	5.4-2
5.4-2	Relationship between DRCOG and CDOT Planning Documents	5.4-4
5.4-3	North Denver Cornerstone Collaborative Projects.....	5.4-10
5.4-4	Summary of Existing Land Use (acres) in Study Area	5.4-11
5.4-5	Existing Land Use	5.4-12
5.4-6	Existing Zoning	5.4-12
5.4-7	Areas of Change and Strategic Planning Area.....	5.4-13
5.4-8	Summary of Land Use Change (acres)	5.4-14
5.4-9	Summary of Land Use Impacts and Mitigation.....	5.4-18

5.5 Relocations and Displacements

5.5-1	Relocations and Displacements Study Area	5.5-2
5.5-2	Residential Relocations by Alternative	5.5-4
5.5-3	No-Action Alternative, North Option Residential Relocations	5.5-5
5.5-4	No-Action Alternative, South Option Residential Relocations	5.5-5
5.5-5	Revised Viaduct Alternative, North Option Residential Relocations	5.5-6
5.5-6	Revised Viaduct Alternative, South Option Residential Relocations	5.5-7
5.5-7	Partial Cover Lowered Alternative Residential Relocations	5.5-7
5.5-8	Property Value of Relocated Owner-Occupied Households by Alternative/Option (Land and Improvements)	5.5-9
5.5-9	Business and Non-Profit Relocations by Alternative and Neighborhood	5.5-10
5.5-10	No-Action Alternative, North Option Business Relocations	5.5-11
5.5-11	No-Action Alternative, South Option Business Relocations	5.5-12
5.5-12	Revised Viaduct Alternative, North Option Business Relocations in the Elyria and Swansea Neighborhood	5.5-13
5.5-13	Business Relocations in the Northeast Park Hill and Stapleton Neighborhoods	5.5-13
5.5-14	Revised Viaduct South Option Business Relocations in the Elyria and Swansea Neighborhood	5.5-14
5.5-15	Partial Cover Lowered Alternative, Business Relocations in the Elyria and Swansea Neighborhood	5.5-15
5.5-16	Summary of Relocations and Displacements Impacts and Mitigations	5.5-20

5.6 Historic Preservation

5.6-1	Area of Potential Effect	5.6-4
5.6-2	Historic Resources within the APE	5.6-7
5.6-3	Historic Resources within the APE in the Elyria and Swansea Neighborhood	5.6-8
5.6-4	Summary of Effects for Historic Resources in the APE	5.6-10
5.6-5	Historic Resources within the APE and Their Effects Determination	5.6-12
5.6-6	Summary of Historic Preservation Impacts and Mitigations	5.6-17

5.7 Paleontological Resources

5.7-1	Paleontological Resources Study Area	5.7-2
5.7-2	Geologic Units within the APE	5.7-4
5.7-3	Geologic unit or layer with criteria ranking	5.7-4
5.7-4	Summary of Paleontological Resources Impacts and Mitigations	5.7-7

5.8 Visual Resources and Aesthetic Qualities

5.8-1	Visual Resources along I-70	5.8-3
5.8-2	Vantage Points	5.8-9
5.8-3	Vantage Point 1: Elyria and Swansea Neighborhood North of I-70	5.8-11
5.8-4	Vantage Point 2: Swansea Elementary School	5.8-13
5.8-5	Vantage Point 3: Elyria and Swansea Neighborhood South of I-70	5.8-15
5.8-6	Aesthetic Quality Effects Summary	5.8-17
5.8-7	Effects to Visual Resources by Type of Improvement	5.8-19
5.8-8	Summary of Visual Resources and Aesthetic Qualities Impacts and Mitigations	5.8-25

5.9 Parks and Recreation

5.9-1	Parks and Recreational Resources in the Study Area	5.9-2
5.9-2	Parks and Recreational Resources.....	5.9-3
5.9-3	Regional Trails/Greenways.....	5.9-6
5.9-4	School Playgrounds and Ball Fields	5.9-7
5.9-5	Section 6(f) Resources in the Study Area.....	5.9-8
5.9-6	Comparison of Swansea Elementary School Impacts	5.9-9
5.9-7	Swansea Elementary School, Side Perspective: No-Action Alternative, North Option	5.9-10
5.9-8	Swansea Elementary School: No-Action Alternative, North Option	5.9-10
5.9-9	Swansea Elementary School, Side Perspective: Revised Viaduct Alternative, North Option.....	5.9-11
5.9-10	Swansea Elementary School: Revised Viaduct Alternative, North Option.....	5.9-12
5.9-11	Swansea Elementary School, Side Perspective: Partial Cover Lowered Alternative ..	5.9-13
5.9-12	Swansea Elementary School: Partial Cover Lowered Alternative	5.9-13
5.9-13	South Platte River Greenway	5.9-15
5.9-14	Globeville Landing Park	5.9-16
5.9-15	Sand Creek Greenway Trail and Proposed Realignment	5.9-18
5.9-16	Summary of Parks and Recreational Resource Impacts and Mitigations	5.9-22

5.10 Air Quality

5.10-1	Air Quality Study Area	5.10-8
5.10-2	Existing (2010) Criteria Pollutant Emissions.....	5.10-11
5.10-3	Existing (2010) MSAT Emissions	5.10-11
5.10-4	Existing (2010) Greenhouse Gas Emissions	5.10-13
5.10-5	Modeling Process for the Carbon Monoxide Hotspot Analysis	5.10-16
5.10-6	Modeling Process for the PM ₁₀ Hotspot Analysis	5.10-19
5.10-7	Interchange Traffic Volumes (2035).....	5.10-21
5.10-8	Modeling Process for the Criteria Pollutant, MSAT, and Greenhouse Gas Analyses	5.10-23
5.10-9	Carbon Monoxide Hotspot Analysis at I-70 and Colorado Boulevard for the Partial Cover Lowered Alternative with Managed Lanes Option	5.10-27
5.10-10	I-70/I-25 PM ₁₀ Hotspot Receptor Locations and Maximum Concentrations for No-Action Alternative (2035)	5.10-29
5.10-11	I-70/I-25 PM ₁₀ Hotspot Receptor Locations and Maximum Concentrations for Partial Cover Lowered Alternative (2035)	5.10-30
5.10-12	PM ₁₀ Hotspot Analysis	5.10-30
5.10-13	PM ₁₀ Design Value Concentrations at Swansea Elementary School	5.10-32
5.10-14	Sensitive Receptor Locations	5.10-33
5.10-15	PM _{2.5} Emission Inventories	5.10-36
5.10-16	PM ₁₀ Emission Inventories	5.10-36
5.10-17	Carbon Monoxide Emission Inventories	5.10-37
5.10-18	Sulfur Dioxide Emission Inventories.....	5.10-38
5.10-19	Nitrogen Oxides Emission Inventories	5.10-39
5.10-20	Volatile Organic Compounds Emission Inventories	5.10-39
5.10-21	Combined MSAT Emission Inventories.....	5.10-40
5.10-22	Design Year (2035) MSAT Emission Inventories Comparison.....	5.10-41
5.10-23	Greenhouse Gas Emission Inventory.....	5.10-41
5.10-24	Fugitive Dust Emissions Inventory	5.10-42
5.10-25	Excavation and Fill Material Handled by Alternative	5.10-43
5.10-26	Summary of Air Quality Commitments and Strategies.....	5.10-47

5.11 Energy

5.11-1	Study Area for Energy Resources	5.11-3
5.11-2	Construction Costs and Energy Consumption during Construction.....	5.11-5
5.11-3	Operational Energy Consumption Per Day (2035)	5.11-5
5.11-4	Summary of Energy Impacts and Mitigations	5.11-7

5.12 Noise

5.12-1	Noise Study Area	5.12-3
5.12-2	CDOT Noise Abatement Criteria.....	5.12-4
5.12-3	Existing Noise Conditions in Globeville	5.12-7
5.12-4	Noise Impacts in Globeville for No-Action Alternative	5.12-8
5.12-5	Noise Impacts in Globeville for Build Alternatives, General-Purpose Lanes Option	5.12-9
5.12-6	Noise Impacts in Globeville for Build Alternatives, Managed Lanes Option.....	5.12-10
5.12-7	Noise Impact Summary in Globeville.....	5.12-11
5.12-8	Existing Noise Conditions in Elyria	5.12-12
5.12-9	Existing Noise Conditions in Swansea.....	5.12-13
5.12-10	Noise Impacts in Elyria and Swansea for No-Action Alternative, North Option ...	5.12-15
5.12-11	Noise Impacts in Elyria and Swansea for No-Action Alternative, South Option ...	5.12-16
5.12-12	Noise Impacts in Elyria and Swansea for Revised Viaduct Alternative, North Option	5.12-18
5.12-13	Noise Impacts in Elyria and Swansea for Revised Viaduct Alternative, South Option	5.12-19
5.12-14	Noise Impacts in Elyria and Swansea for Partial Cover Lowered Alternative	5.12-21
5.12-15	Noise Impact Summary in Elyria	5.12-22
5.12-16	Noise Impact Summary in Swansea.....	5.12-23
5.12-17	Existing Noise Conditions in Stapleton.....	5.12-24
5.12-18	Noise Impact Summary in Stapleton.....	5.12-25
5.12-19	Existing and No-Action Noise Conditions at Peoria Street.....	5.12-26
5.12-20	Existing and No-Action Noise Conditions in Montbello.....	5.12-27
5.12-21	Noise Impacts at Peoria Street for General-Purpose Lanes Option.....	5.12-28
5.12-22	Noise Impacts at Peoria Street for Managed Lanes Option	5.12-29
5.12-23	Noise Impacts in Montbello for General-Purpose Lanes Option	5.12-30
5.12-24	Noise Impacts in Montbello for Managed Lanes Option	5.12-30
5.12-25	Noise Impact Summary at Peoria Street.....	5.12-31
5.12-26	Noise Impact Summary in Montbello.....	5.12-31
5.12-27	Existing and No-Action Noise Conditions in Aurora	5.12-32
5.12-28	Noise Impacts in Aurora for Build Alternatives, General-Purpose Lanes Option and Managed Lanes Option.....	5.12-33
5.12-29	Noise impact summary in Aurora.....	5.12-34
5.12-30	Mitigation Summary in Globeville for the Build Alternatives.....	5.12-38
5.12-31	Mitigation Benefits to Globeville for Build Alternatives, General-Purpose Lanes Option	5.12-38
5.12-32	Mitigation Benefits to Globeville for Build Alternatives, Managed Lanes Option ..	5.12-39
5.12-33	Mitigation Summary in Elyria and Swansea for No-Action Alternative, North Option.....	5.12-40
5.12-34	Mitigation Benefits in Elyria and Swansea for No-Action Alternative, North Option.....	5.12-41
5.12-35	Mitigation Summary in Elyria and Swansea for No-Action Alternative, South Option	5.12-42
5.12-36	Mitigation Benefits in Elyria and Swansea for No-Action Alternative, South Option	5.12-43
5.12-37	Mitigation Summary in Elyria and Swansea for Revised Viaduct Alternative, North Option.....	5.12-44
5.12-38	Mitigation Benefits in Elyria and Swansea for Revised Viaduct Alternative, North Option.....	5.12-45

5.12 Noise (continued)

5.12-39	Mitigation Summary in Elyria and Swansea for Revised Viaduct Alternative, South Option	5.12-46
5.12-40	Mitigation Benefits in Elyria and Swansea for Revised Viaduct Alternative, South Option	5.12-47
5.12-41	Mitigation Summary in Elyria and Swansea for the Partial Cover Lowered Alternative	5.12-48
5.12-42	Mitigation Benefits in Elyria and Swansea for Partial Cover Lowered Alternative	5.12-49
5.12-43	Mitigation Summary in Elyria for Build Alternatives	5.12-50
5.12-44	Mitigation Summary in Swansea North of I-70 for Build Alternatives	5.12-50
5.12-45	Mitigation Summary in Swansea South of I-70 for Build Alternatives	5.12-51
5.12-46	Mitigation Summary in Peoria Street and Montbello	5.12-52
5.12-47	Mitigation Benefits at Peoria Street for Build Alternatives, General-Purpose and Managed Lanes Options	5.12-53
5.12-48	Mitigation Benefits in Montbello for Build Alternatives, General-Purpose and Managed Lanes Options	5.12-54
5.12-49	Mitigation Benefits in Aurora for Build Alternatives, General-Purpose Lanes Option and Managed Lanes Options	5.12-56
5.12-50	Mitigation Summary in Aurora	5.12-57
5.12-51	Noise Wall Mitigation Summary by Neighborhood	5.12-58
5.12-52	Summary of Noise Impacts and Mitigation Measures	5.12-62

5.13 Biological Resources

5.13-1	Biological Resources Study Area	5.13-2
5.13-2	Mule Deer Activity Areas	5.13-6
5.13-3	White-Tailed Deer Activity Areas	5.13-6
5.13-4	Special-Status Species of Concern	5.13-9
5.13-5	Designated Bald Eagle Winter Range	5.13-10
5.13-6	Noxious Weed Species of Concern	5.13-14
5.13-7	Projected Direct Impacts to Deer, Bald Eagle, and Black-Tailed Prairie Dog Habitats	5.13-17
5.13-8	Projected Impacts to Riparian Areas Caused by the Build Alternatives	5.13-19
5.13-9	Summary of Biological Resources Impacts and Mitigation Measures	5.13-26

5.14 Floodplains and Drainage/Hydrology

5.14-1	Floodplains and Drainage Study Area	5.14-4
5.14-2	Potential Ponding Areas	5.14-5
5.14-3	I-70 East Offsite Flow Summary Table	5.14-6
5.14-4	Onsite Drainage System North of I-70	5.14-8
5.14-5	Offsite Drainage for the Partial Cover Lowered Alternative South of I-70	5.14-9
5.14-6	Summary of Floodplains and Drainage/Hydrology Impacts and Mitigations	5.14-11

5.15 Wetlands, Open Waters, and Other Waters of the U.S

5.15-1	Wetlands, Open Waters, and Other Waters of the U.S. in the Study Area	5.15-4
5.15-2	Summary of Wetlands, Open Waters, and Other Waters of the U.S. Found in the Study Area	5.15-4
5.15-3	Impacts to Wetlands, Open Waters, and Other Waters of the U.S. in the Study Area	5.15-7
5.15-4	Summary of Wetlands, Open Waters, and Other Waters of the U.S. Impacts and Mitigations	5.15-13

5.16 Water Quality

5.16-1	Potential Contaminates from Transportation Projects That May Impact Water Resources	5.16-2
5.16-2	Colorado Regulation Number 38 Water Use Classifications	5.16-6
5.16-3	Impaired Waters Identified on EPA Section 303(d) List	5.16-7
5.16-4	Water Quality Study Area	5.16-8
5.16-5	South Platte River Water Quality Effect Summary	5.16-11
5.16-6	Sand Creek Water Quality Effect Summary	5.16-11
5.16-7	Water Quality Factor Summary	5.16-12
5.16-8	Preliminary Water Quality Pond Locations	5.16-13
5.16-9	Summary of Water Quality Impacts and Mitigations	5.16-17

5.17 Geology and Soils

5.17-1	Geology and Soil Resources Study Area	5.17-2
5.17-2	Geologic Units	5.17-3
5.17-3	Summary of Geologic Unit Stability During an Earthquake	5.17-4
5.17-4	Comparison of Surface, Groundwater, and Bedrock Elevations	5.17-6
5.17-5	Summary of Geology and Soils Impacts and Mitigations	5.17-9

5.18 Hazardous Materials

5.18-1	Hazardous Materials Study Area	5.18-3
5.18-2	Environmental Records Search Results	5.18-3
5.18-3	CERCLIS Sites	5.18-5
5.18-4	CERCLIS, NFRAP Sites	5.18-6
5.18-5	NPL Sites	5.18-6
5.18-6	RCRA Corrective Action Sites	5.18-7
5.18-7	Solid Waste Landfill Sites	5.18-8
5.18-8	Voluntary Cleanup Program Sites	5.18-8
5.18-9	Petroleum Storage Tank Locations	5.18-9
5.18-10	Leaking Underground Storage Tank Locations	5.18-10
5.18-11	Summary of Potential Hazardous Materials Sites and Area of Ground Disturbance Impacted by Project Alternatives	5.18-13
5.18-12	Summary of Hazardous Materials Impacts and Mitigations	5.18-19

5.19 Utilities

5.19-1	Study Area for Utilities Analysis	5.19-2
5.19-2	Summary of Utilities Impacts and Mitigations	5.19-26

5.20 Human Health Conditions

5.20-1	Noise Receptors Exceeding NAC Threshold by Alternative	5.20-7
5.20-2	Summary of Impacts and Mitigations	5.20-11
5.20-3	Areas of Analysis for Studies Conducted by Others Within or Near the Study Area	5.20-13

5.23 Summary of Impacts and Mitigations

5.23-1	Summary of Transportation Impacts and Mitigation	5.23-1
5.23-2	Summary of Social and Economic Conditions Impacts and Mitigations	5.23-2
5.23-3	Summary of Environmental Justice Benefits, Impacts, and Mitigations	5.23-4
5.23-4	Summary of Land Use Impacts and Mitigation.....	5.23-8
5.23-5	Summary of Relocations and Displacements Impacts and Mitigations.....	5.23-9
5.23-6	Summary of Historic Preservation Impacts and Mitigations	5.23-10
5.23-7	Summary of Paleontological Resources Impacts and Mitigations	5.23-11
5.23-8	Summary of Visual Resources and Aesthetic Qualities Impacts and Mitigations .	5.23-12
5.23-9	Summary of Parks and Recreational Resource Impacts and Mitigations	5.23-13
5.23-10	Summary of Air Quality Commitments and Strategies.....	5.23-14
5.23-11	Summary of Energy Impacts and Mitigations	5.23-15
5.23-12	Summary of Noise Impacts and Mitigation Measures.....	5.23-16
5.23-13	Summary of Biological Resources Impacts and Mitigation Measures	5.23-17
5.23-14	Summary of Floodplains and Drainage/Hydrology Impacts and Mitigations	5.23-18
5.23-15	Summary of Wetlands, Open Waters, and Other Waters of the U.S. Impacts and Mitigations	5.23-19
5.23-16	Summary of Water Quality Impacts and Mitigations.....	5.23-20
5.23-17	Summary of Geology and Soils Impacts and Mitigations	5.23-22
5.23-18	Summary of Hazardous Materials Impacts and Mitigations.....	5.23-23
5.23-19	Summary of Utilities Impacts and Mitigations.....	5.23-25
5.23-20	Summary of Section 4(f) and Section 6(f) Recreation Resources Impacts and Mitigations	5.23-26

Chapter 6: Cumulative Impacts

6-1	Key Resources Evaluated for Cumulative Impacts.....	6-3
6-2	Cumulative Impact Resource Study Areas	6-4
6-3	Transportation and Development Project Locations.....	6-6
6-4	Past, Present, and Future Transportation Projects.....	6-6
6-5	Past, Present, and Future Development Projects	6-8
6-6	Total neighborhood home quantities, 1960 to 2010	6-11
6-7	Project and Regional Vehicle Miles of Travel (2035)	6-22
6-8	2035 Project and Regional Emissions	6-22
6-9	2010 Volatile Organic Compounds and Nitrogen Oxides Regional Emissions	6-23

Chapter 7: Section 4(f) Evaluation

7-1	Summary of Project Alternatives and Options	7-6
7-2	Overview of Section 4(f) Properties	7-11
7-3	Summary of Section 4(f) Properties and Use Determinations	7-17
7-4	Market Street Railroad/Chicago, Burlington & Quincy Railroad Segment— No-Action Alternative.....	7-21
7-5	Market Street Railroad/Chicago, Burlington & Quincy Railroad Segment— Revised Viaduct Alternative	7-22
7-6	Market Street Railroad/Chicago, Burlington & Quincy Railroad Segment— Partial Cover Lowered Alternative	7-23
7-7	Union Pacific Beltline Railroad Segment—Build Alternatives	7-25
7-8	Denver and Kansas Pacific/Union Pacific Railroad Segment—No-Action Alternative .	7-27
7-9	Denver and Kansas Pacific/Union Pacific Railroad Segment—Revised Viaduct Alternative	7-29
7-10	Denver and Kansas Pacific/Union Pacific Railroad Segment—Partial Cover Lowered Alternative	7-30
7-11	Rocky Mountain Arsenal Railroad Segment—Build Alternatives	7-33
7-12	York Street/East 40th Avenue Brick Sanitary Sewer—Partial Cover Lowered Alternative	7-34
7-13	Colonial Manor Motel—No-Action Alternative, North Option	7-37

Chapter 7: Section 4(f) Evaluation (continued)

7-14	Colonial Manor Motel—Revised Viaduct Alternative, North Option	7-37
7-15	Colonial Manor Motel—Partial Cover Lowered Alternative	7-38
7-16	Univar—Build Alternatives	7-40
7-17	Safeway Distribution Center Historic District—Revised Viaduct Alternative, North and South Options	7-42
7-18	Safeway Distribution Center Historic District—Partial Cover Lowered Alternative	7-43
7-19	Nestlé Purina PetCare Company—No-Action Alternative and Revised Viaduct Alternative, South Option	7-45
7-20	Sanchez Businesses—No-Action Alternative, North Option	7-48
7-21	Sanchez Businesses—Revised Viaduct Alternative, North Option.....	7-49
7-22	Sanchez Businesses—Partial Cover Lowered Alternative	7-50
7-23	Brown and Alarid Property and Toth/Kelly Residence—Partial Cover Lowered Alternative	7-53
7-24	Rodriguez Residence and 4541 Clayton LLC Property—Revised Viaduct Alternative, South Option	7-56
7-25	Rudy/Bernal and Garcia Residences—No-Action Alternative, North Option	7-60
7-26	Rudy/Bernal and Garcia Residences—Revised Viaduct Alternative, North Option.....	7-60
7-27	Rudy/Bernal and Garcia Residences—Revised Viaduct Alternative, South Option	7-61
7-28	Rudy/Bernal and Garcia Residences—Partial Cover Lowered Alternative	7-61
7-29	Kenworthy/Wyckoff Residence—Revised Viaduct Alternative, South Option.....	7-66
7-30	Portales Residence—No-Action Alternative, North Option	7-68
7-31	Portales Residence—Revised Viaduct Alternative, North Option	7-68
7-32	Portales Residence—Partial Cover Lowered Alternative	7-69
7-33	Summary of Alfred R. Wessel Historic District Contributing Resources Subject to a Use.....	7-72
7-34	Alfred R. Wessel Historic District—No-Action Alternative, North Option	7-73
7-35	Alfred R. Wessel Historic District—Revised Viaduct Alternative, North Option	7-75
7-36	Alfred R. Wessel Historic District—Revised Viaduct Alternative, South Option	7-76
7-37	Alfred R. Wessel Historic District—Partial Cover Lowered Alternative	7-77
7-38	National Western Historic District—All Alternatives	7-79
7-39	National Western Historic District—Partial Cover Lowered Alternative.....	7-81
7-40	Overview of Section 4(f) Parks and Recreational Areas.....	7-83
7-41	Globeville Landing Park—Partial Cover Lowered Alternative	7-86
7-42	Swansea Elementary School Public Playground—No-Action Alternative, North Option	7-89
7-43	Swansea Elementary School Public Playground—Revised Viaduct Alternative, North Option.....	7-90
7-44	Swansea Elementary School Public Playground—Partial Cover Lowered Alternative .	7-92
7-45	Summary of Section 4(f) Property Use	7-94
7-46	Alternatives Evaluated During Screening and Section 4(f) Resources	7-97
7-47	Summary of Section 4(f) Property Minimization Measures	7-102
7-48	Section 4(f) Properties No Longer Subject to a Use Compared to 2008 Draft EIS..	7-105
7-49	Historic Resource and Contributing Property Use	7-108
7-50	Relocation and Land Use Impacts	7-111
7-51	Summary of Least-Overall-Harm Analysis.....	7-118

Chapter 8: Phasing

8-1	Phase 1 Overview.....	8-4
8-2	Phase 1 Typical Section.....	8-4
8-3	Phase 1 North/South Connectivity over I-70.....	8-5
8-4	Phase 1 Lane Configuration and Interchange Reconstruction.....	8-8
8-5	Phase 2 Overview.....	8-9
8-6	Phase 2 Lane Configuration and Interchange Reconstruction.....	8-10
8-7	Summary of Impacts and Mitigations by Resource for Phase 1.....	8-11
8-8	Summary of Impacts and Mitigations by Resource for Phase 2.....	8-24
8-9	I-70 Volumes.....	8-34
8-10	46th Avenue and Stapleton Drive North/South Volumes.....	8-36
8-11	East-West Parallel Route Screenlines.....	8-37
8-12	Traffic Volumes on the Local Street Network.....	8-37
8-13	VHT.....	8-38
8-14	VMT.....	8-39
8-15	No-Action Alternative Average Speeds.....	8-40
8-16	I-70 Average Speeds for Phase 1.....	8-42
8-17	I-70 Average Speeds for Preferred Alternative.....	8-42
8-18	I-70 Travel Times.....	8-43
8-19	46th Avenue and Stapleton Drive North/South Travel Times.....	8-45

Chapter 9: Preferred Alternative Mitigation Commitments

9-1	Preferred Alternative Mitigation Commitments.....	9-3
-----	---	-----

Chapter 10: Community Outreach and Agency Involvement

10-1	Community Outreach Process.....	10-3
10-2	Community Outreach Boundaries and Project Area.....	10-6
10-3	PACT Process.....	10-14
10-4	Public Hearings for 2008 Draft EIS.....	10-18
10-5	Public Hearings for Supplemental Draft EIS.....	10-24
10-6	HPTE I-70 East Events.....	10-31

Table of Contents: Volume 2 of 3

Attachment A – Alternative Maps

Attachment A, Alternative Maps, is a standalone 11-inch by 17-inch booklet

Attachment B – Agency Consultation

Agency Consultation Addendum

Attachment C – Alternative Analysis

Alternative Analysis Technical Report Addendum

Attachment D – Community Outreach and Agency Involvement

Community Outreach and Agency Involvement Technical Report Addendum

Attachment E – Traffic

Traffic Technical Report

Attachment F – Environmental Justice

Environmental Justice Technical Report

(The Supplemental Draft EIS attachment required no modifications or updating, no addendum or new Technical Report has been prepared as part of the Final EIS)

Attachment G – Relocations and Displacements

Conceptual Stage Relocation Technical Report Addendum

Attachment H – Hazardous Materials

Hazardous Materials Technical Report Addendum

Attachment I – Historic Preservation (Section 106)

Section 106 Determination of Eligibility and Effects
Documentation for Finding of Adverse Effect

Attachment J – Air Quality

Air Quality Technical Report

Attachment K – Noise

Noise Technical Report

Attachment L – Biological Resources

Biological Assessment Addendum

Attachment M – Hydrology & Hydraulics

Hydrology & Hydraulics Technical Report Addendum

Attachment N – Wetlands and Other Waters of the U.S.

Wetlands and Other Waters of the U.S. Technical Report Addendum
Wetland Finding

Attachment O – Aesthetic and Design Guidelines

Attachment P – Cover Planning

Table of Contents: Volume 3 of 3

Attachment Q – Supplemental Draft EIS Comments and Responses

Part 1 of 3: Frequently Received Comments and Responses (also included in Spanish)
Agencies and Elected Officials
Businesses
Special Interest Groups

Part 2 of 3: Citizens A through J

Part 3 of 3: Citizens K through Z
