

## What happened after the 2008 Draft EIS?

**Lack of public support on any of  
the Draft EIS alternatives**

**Failed to reach a consensus with  
the PACT process**

**Revisited previously eliminated  
alternatives**

**Developed and modified the  
alternatives to address public and  
agency concerns to the extent possible**

**Currently preparing a  
Supplemental Draft EIS**

*What is a Supplemental Draft EIS?*

*Whenever there are changes, new information, or further developments on a project that result in significant environmental impacts not identified in the most recently distributed version of the draft or final EIS, a supplemental EIS is necessary*
