

Resources Evaluated in the Final EIS

Studies were conducted to determine the impacts of the project alternatives on different environmental resources, including:

Chapter 4 Transportation Impacts and Mitigation Measures	Section 5.13 Biological Resources*
Section 5.2 Social and Economic Conditions*	Section 5.14 Floodplains and Drainage/ Hydrology
Section 5.3 Environmental Justice	Section 5.15 Wetlands and Other Waters of the U.S.*
Section 5.4 Land Use and Zoning*	Section 5.16 Water Quality*
Section 5.5 Relocations and Displacements	Section 5.17 Geology and Soils*
Section 5.6 Historic Preservation	Section 5.18 Hazardous Materials
Section 5.7 Paleontological Resources*	Section 5.19 Utilities*
Section 5.8 Visual Resources and Aesthetic Qualities	Section 5.20 Human Health Conditions**
Section 5.9 Parks and Recreational Resources*	Section 5.21 Irreversible and Irretrievable Commitment of Resources*
Section 5.10 Air Quality	Section 5.22 Short-Term Uses and Long-Term Productivity*
Section 5.11 Energy*	Chapter 6 Cumulative Impacts*
Section 5.12 Noise	Chapter 7 Section 4(f) Evaluation*

A full discussion for each resource analyzed is included in the Final EIS.

- * *No board provided; see Final EIS for impact summary and mitigation measures*
- ** *New topic added to the Final EIS as a result of comments received on the Supplemental Draft EIS; no board provided*
