

## Relocations and Displacements

All of the residential relocations that result from the proposed project alternatives are located in the Elyria and Swansea Neighborhood. The majority of business relocations associated with all of the alternatives will occur in the Elyria and Swansea Neighborhood. Both Build Alternatives will require three business relocations from the Northeast Park Hill Neighborhood and one business relocation in the Stapleton Neighborhood.

To mitigate impacts of the relocated households and businesses, CDOT will:

- Conform to the Uniform Relocation Act
- Assign a right-of-way specialist to each impacted property to assist the owners/residents with the process
- Provide bilingual services for any of the relocated and displaced businesses or households that need them
- Hold informational meetings for businesses being relocated to provide an introduction and overview of the process associated with the Uniform Act
- Provide targeted assistance to encourage businesses to find new locations in the same neighborhoods, and provide special assistance to minority or woman-owned businesses
