

What Happens Next?

- After considering additional public input following the Final EIS, a Record of Decision for Phase 1 will be issued by FHWA that selects a project for implementation
- CDOT will release the Final Request for Proposal
- CDOT will select a developer partner to design, build, finance, operate, and maintain the project
- Construction of Phase 1 will begin in 2017 and is anticipated to last four to five years
- Public involvement will continue through the rest of the environmental process and extend through developer selection, final design, and construction
